Ranking:
 /5 Rank in industry

Veolia Environnement S.A. designs and provides water, waste, and energy management solutions worldwide. The company is involved in the resource management, production, and delivery of drinking water and industrial process water; collection, treatment, and recycling of wastewater; and design and construction of treatment and network infrastructure. It also provides waste collection, waste material recovery, waste-to-energy, organic waste material recovery, hazardous waste treatment, dismantling and remediation, urban cleaning, and industrial maintenance and cleaning services. In addition, the company engages in the operation and maintenance of heating and cooling networks; development of energy services to reduce the energy consumption and CO2 emissions of buildings; optimization of industrial utilities; and energy use related to processes and industrial buildings, as well as produces electricity from biomass. It offers drinking water to 100 million people; wastewater services to 61.3 million people; waste collection services to 39.6 million people; and heating and cooling services to 8.1 million people. The company was formerly known as Vivendi Environnement and changed its name to Veolia Environnement S.A. in 2003. Veolia Environnement S.A. was founded in 1853 and is based in Aubervilliers, France. Understanding our Impact Score

1. Analyses

The analyses are written by an active community of writers that went through a rigorous training process. Each analysis is reviewed by our team of editors being published.

2. Ratings

Then the community rates each analysis according to 2 dimensions: value and scale.

Value

3. Value & Scale

Value: how positive or negative the impact is described in the analysis. **Scale:** how small or large the impact is described, taking into account the breadth, depth and persistence, as defined by the Impact Management Project.

Scale

4. Final Score

The analyses are written by an active community of writers that went through a rigorous training process. Each analysis is reviewed by our team of editors being published.
